PROFESSIONAL SUMMARY

Full Stack Developer (MERN, Next.js) and B.Tech Computer Science student (graduating 2027) with hands-on internship experience building and deploying web applications using React.js, Next.js, Node.js, Express.js, MongoDB and REST APIs. Built and deployed an AI-powered civic complaint portal using Firebase, Gemini API and Google Maps API. Strong foundation in Data Structures and Algorithms, OOP, SDLC and Git/GitHub team workflows. Seeking a Software Development Engineer (SDE) or Full Stack Developer role.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), Java, SQL, HTML5, CSS3
- **Frontend:** React.js, Next.js (App Router, SSR), Responsive Web Design
- **Backend:** Node.js, Express.js, RESTful APIs, Authentication
- **Databases:** MongoDB, MySQL, Firebase (Auth, Storage)
- **Cloud and APIs:** Vercel, Google Maps API, Gemini API
- **Tools:** Git, GitHub, VS Code
- **Core CS:** Data Structures and Algorithms, Object-Oriented Programming, Problem Solving, SDLC

EXPERIENCE

Full Stack Web Developer Intern | CollegePur | Remote — Sep 2026 – Present

- Develop and ship features for a live full-stack web application using React.js and Next.js on the frontend and Node.js and Express.js with REST APIs on the backend.
- Translate requirements into working features across the SDLC: development, testing, debugging and deployment in a collaborative team.
- Use Git and GitHub for branching, pull requests and code collaboration.
- Interviewed 4 intern candidates for technical and HR rounds, assessing technical fundamentals and communication.

MERN Stack Trainee | Cetpa Infotech — Jun 2026

- Built full-stack applications using MongoDB, Express.js, React.js and Node.js, from design to deployment.
- Developed and consumed REST APIs and applied component-based architecture in React.
- Worked in a team using Git and GitHub.

PROJECTS

Crowd Civic AI – Verification and Resolution Portal | Live Demo: crowdcivic-ai.vercel.app

Tech: React.js, Next.js, JavaScript, Firebase, Gemini API, Google Maps API, REST API, Vercel

- Built a web portal for citizens to report potholes and broken streetlights with photo uploads, location tagging and status tracking, removing the need to visit offices.
- Developed the frontend with Next.js App Router (SSR, optimized routing) and integrated Firebase Authentication and Storage for secure login and image management.
- Integrated Google Maps API for location tagging and Gemini API for AI-assisted complaint verification.
- Created a public dashboard showing open issues by area with real-time status updates.
- Tested login, upload, location and status flows manually, fixed defects, and deployed the application on Vercel.

EDUCATION

B.Tech, Computer Science Engineering | IMS Engineering College, Ghaziabad (AKTU) — 2023 – 2027
Overall: 81.89% | 6th Semester SGPA: 8.23

Class XII (CBSE) | Mahamaya Balika Inter College, Noida — 2023 | 81.20%

Class X (UP Board) | LFA Inter College — 2021 | 81.33%

CERTIFICATIONS

- Python Full Stack Virtual Internship, EduSkills (2026)
- IBM SkillsBuild: AI Fundamentals (2026)
- Generative AI Studio, Simplilearn (2026)
- Python Essentials I, Cisco Networking Academy
